PORTER EXONERATED ON CHARGE OF THREATENING INDUSTRIALIST

Another Blow to I. W. W.'S Who Are
Causing Trouble at San Diego—
Porter Is Glad He Saved Moore From
Hanging.

SAN DIEGO, Cal., May 25.—J. M. Porter was exonerated this morning on the charge of heading the vigilantes who threatened to kill the industrialist attorneys, Moore and Robbins. The verdict was rendered at 11 o'clock last night and before leaving the court room Porter said he was glad he kept the crowd from hanging Moore recently.

SAN DIEGO, May 25.—That he had knowledge of the existence of the citizens' committee or so-called "vigilantes" was admitted, on the witness stand last night by P. C. Spaulding, chairman of the San Diego Chamber of Commerce, in the course of the hearing of contempt charges against J. M. Porter, alleged "vigilante" leader.

Spaulding testified, however, that he did not know that Porter had been active among the alleged "vigilantes."

The court, composed of the three superior court judges of San Diego county sitting en banc, said it wished to know just what Attorney Fred H. Moore charged Porter with having done before more testimony was offered. Moore said he wanted to show that Porter's alleged acts were deliberate, not accidental, and that they were a "part of a system" which was calculated to impede Moore's efforts in behalf of his clients among the Industrial Workers of the World.

The court instructed him to show some specific act on the part of the defendant before attempting to prove a motive or a system.

Moore then called his partner, Marcus W. Robbins, to the stand who testified that the morning of May 18, he was taken to the police

The fleet includes the third and fourth divisions of the Atlantic fleet, including the battleships Georgia, Nebraska, New Jersey, Rhode Island, Mississippi, Missouri, Minnesota and the Ohio, together with the hospital ship Solace that will accompany the vessels. Two supply ships will follow later.

WASHINGTON, May 25.—The State Department of War at noon today requested the Navy Department to mobilize at Key West, there to be held in readiness for Cuban developments. The administration of warfare is greatly alarmed.

WASHINGTON, May 25.—Members of the War cabinet fear that necessity of Cuban intervention is bearing as the result of continued violence of the natives to Americans and foreigners and the destruction of telegraph wires and railroad property and tracks at Guantanamo, of the Western railroad, which is owned by an American company. An appeal for volunteers by the Cuban government has been made. The War Department today refuses

to admit they are preparing to send troops to Cuba.

SANTIAGO, Cuba, May 25.—A band of negro insurgents, apparently under the command of General Ironet, has attacked and captured El Caney del Sitio, four miles from Palma Soriano on the Bayamo branch of the Cuban railroad. They sacked the town, committing many outrages.

A small detail of rural guards stationed at El Caney del Sitio was unable to offer any effective resistance to the rebels.

El Caney del Sitio is situated in the center of rich coffee and cocoa region and the amount of damage done by the rebels is estimated at a high figure.

A body of regular troops left San Luis last night for El Caney del Sitio on receipt of the information that the insurgents were marching on the place. They arrived too late, however, to prevent the sacking of the town, but intend to pursue and attack the insurgents today.

The newly organized corps of volunteers, while patrolling the streets of Santiago last night, captured a negro cutting down the electric light posts near the power house. Apparently it was his intention to plunge the city in darkness in order to facilitate a night attack by the insurgent forces known to be in the vicinity.

POWERS AWAKEN TO THE EUROPEAN WAR SITUATION

PARIS, May 25.—The extension of the Turko-Italian war is awakening the powers to the necessity of making renewed attempts to bring the conflict to an end.

Italy now is in control of 11 Turkish islands in the archipelago and this, it is pointed out, totally modifies the equilibrium of force in one section of the water route around the world, which, with the completion of the Panama canal, means a continuous global marine movement.

The Temps declares that Italy's ownership of the archipelago is distinctly against the interests of the triple alliance and chiefly against the interests of Russia and the time has arrived for members of the triple entente to examine the situation seriously.

Offers for mediation between Turkey and Italy have been preferred, including the calling of a congress of European powers and a proposal to allow Italy to remain in Tripoli as England has remained in Egypt with Turkey retaining legal control in the country, getting back her islands and receiving additional economic compensation.

Word was received in Tonopah this morning that while on a fishing expedition last week, near South Bethlehem, Penn., Charles M. Schwab rescued John G. Kirchen, general manager of the Tonopah Extension Mining company from drowning and is now a candidate for a Carnegie hero medal.

Schwab and Kirchen were fishing for trout in Martin's creek, and in making a cast, Kirchen's fly caught in the branches of a tree. It was a favorite fly and as Kirchen was climbing the tree to recover it he lost his balance and fell several feet into the deep pool. Schwab seeing his associate struggling in the water, jumped in and after considerable exertion dragged Kirchen to the bank. Both men were exhausted, Kirchen losing consciousness.

A good sized stringer of ore was cut last night in the property owned by the Tonopah Merger company and as a consequence the stock today took quite a jump. The discovery was made at the 675-foot level and the find carries values that are most satisfactory to the management. It has been known for some time that the formation was changing in the shaft and that ore was near at hand. This discovery will mean the employment of more men in the camp as the work which follows the Tonopah merger has been issued for a term of five years by Judge Averitt. From Murphy and J. A. Buchanan and these gentlemen have recently completed their plans for the organization of a company which will start work just as soon as the fur-

mal arrangements have been completed.
